

Zeulantis is a word coined by marrying Zeus and Atlantis. Zeus is an Indo / Greccan word for the most powerful ruler of the world. So much so, he is considered to be the God of Gods or most exemplary form of perfection.

Atlantis on the other hand is a mythical / historic place on earth that was very advanced and forward looking.

Therefore the idea of bringing the epitome of Perfection and Innovation has inspired us to amalgamate the words Zeus and Atlantis – Zeulantis. The aim of Zeulantis is to achieve the highest level of perfection with acknowledgement towards modernization, strategy and growth achievement of 'Atlantis' proportions.

The symbolic representation of alphabet Z, where two horizontal bars of perfection and innovation are joined by the spark of lightening, denoting that both are inseparable and spark up each other, each one from the other, thus completing cycle with the letter Z.

Our vision is to create a world-class Business Development and Learning organization which will bring innovative solutions thru a partner network and provide Immersive Training experience for our customers

Zeulantis Solutions

Products and Services
